Dear F.L.E. Share holder,

I wanted to send out a quick update on our Café & Event Center project here in Blaine. First off, you may have seen the online pledge drive we set up through Indiegogo to raise extra funds for site development costs. These are expenses that the M.A.C. (airport land owner) threw at us last minute and was not part of our original financial planning. The site development process has begun, but in order to keep it going, extra funds are required to cover these specific costs. The drive ended back on the 19<sup>th</sup>, and we raised over \$2,600.00.

**Share offering** - continues to gain more investors. I recently received another purchase from an investor wanting to be in the "Prop Club" (5,000 shares or more). To date, we have sold almost 183,000 shares. You can see details at <http://www.flightlineltd.com/sharesales.html>

**On the political side** - logistically we are in good shape, we have a signed site agreement with M.A.C. for developing the area. So, nothing else is needed from them at this time. This agreement took over two years to reach.

**Gift Shop** - Our online gift shop seems to be working <http://www.flightlineltd.com/gift-shop.html>, I'm sending out product each week or so, and it has been bringing in revenue for the company.

**Management side** - we just hired a restaurant broker. He will match us up with the right partner to lease out the restaurant portion of the facility (about 10,000 square feet) and create the best legal arrangement for us with the new renter. This plan greatly reduces the amount of up-front and annual expenses needed to start and operate the facility. We are very excited about having him as part of our team as he a great deal of restaurant experience and familiarity with the growth in this area. We are meeting with some potential partners next week.

**Staffing side** - We now have a new intern from Bethel University working for us. She will help with marketing the pledge drive, share offering, gift shop and company as a whole.

I continue to work on this project every day. It's our goal to complete the share offering, acquire bank financing, and start construction in early to mid 2013. If you know of anyone who might be interested in our share offering, please have them contact me as soon as possible.

Thank you for your continued support!

Sincerely,

**Craig A. Schiller – CEO/President**
